

ProCraft Burrard Thimble

Painted

Cast Alloy Heavy Duty

Burrard thimbles are a heavy duty gusseted cast alloy steel wire rope thimble. The smooth grooves provides a proper bending radius for the rope, and maximum strength in the critical areas so it will not collapse. This design allows for a large hole diameter for increased pin sizes and ease of connection to mating hardware, while retaining a narrow width.

Stock Code	Wire Rope Diameter	A	B	C	D	E	Weight Per Piece
