

ProCraft DL Drum Lifter

Versatile two leg chain assembly with rim clamps for horizontal lifting and transporting of large or small steel drums with and without the lid.

The design and specification of the ProCraft DL drum lifter includes:

- Working load limit 1 tonne (2,200 pounds)
- Light weight and easy installation.
- Includes spring-loaded latch for positive drum grip
- This lifting device is designed to lift 30 or 55 gallon plastic, fibre, or steel drums with a rim.
- Alloy steel chain
- Each assembly is proof load tested at the factory.
- Meets or exceeds ASME B30.20
