

ProCraft PML Magnets

Permanent lifting magnets provide a quick, cost effective solution for lifting ferrous metal parts including plate and sheets.

The design and specification of the ProCraft PML Lifting Magnet includes:

- Range 220 pounds to 2,200 pounds
- High-quality Neodymium magnet material [NdFeB].
- Simple and light lever operation with safety button.
- A 'V' slot on the bottom lifting surface allows for the lifting of round bars as well as flat stock.
- An external power source is not required, which gives the lifting magnet versatility and can be used almost anywhere.
- Each magnet is load tested at the factory.

Wesco Part Number	Model	Rated Lifting Capacity	Rated Lifting Capacity Round Steel Bar	Maximum Break-away Force	Inches						Weight Pounds
					A	B	C	D	E	F
